

Performance. Protection. Peace of Mind.

The Best Defense is a Good Offense.

PIIGuard360

**PIIGuard360 is a Breach Prevention, Employee
Education, Compliance and Documentation
Platform Purpose Built to Secure Your Business**

www.waterdogcomputerworks.com

The PIIGuard360 platform transforms your business, forming an offensive line of protection.

For years our clients have relied on us to help them build a comprehensive cybersecurity program that was not just reactive but was proactive and engaged their team in the defense of their company.

To answer that call, we've partnered with PIIGuard360™, a full featured client-engagement cybersecurity platform. Purpose-built to engage employees and enlist in the defense of the company, completing the cybersecurity program by forming a front-line of defense with Dark Web Monitoring, a Risk Assessments and Work Plans, and Security Awareness Training, with weekly refreshers to keep the organization cyber-aware. PIIGuard360™ also includes Simulated Phishing and award-winning Policy Management with more than 75 policy templates covering nearly every cybersecurity regulation. To round out the 360° visibility needed, PIIGuard360™ includes, incidents and risky behavior reporting, fully documented for audit and compliance reporting. PIIGuard360™ is a cybersecurity compliance, training and documentation platform designed to assess, organize, secure and educate.

3RD PARTY VENDOR DUE DILIGENCE

Leverage Dark Web Search and Dark Web Monitoring to assess the security posture of your prospective and current vendors.

UNLIMITED SECURITY AWARENESS TRAINING

Train all of your clients and their users to make them cyber-aware, enlisting them in the defense of the organization.

AUTOMATED WEEKLY REFRESHER TRAINING

Security Shorts are micro-trainings sent on a weekly basis to any or all of your clients and users that you choose, keeping security top of mind.

SIMULATED PHISHING CAMPAIGNS

Prevent phishing attacks before they can occur by conducting your own; raising awareness, identifying vulnerabilities and improving security.

NIST-BASED RISK ASSESSMENT

Fully compliant with the NIST framework, assess the risk posture of the entire organization, exposing vulnerabilities wherever they exist.

WORK PLAN GENERATION WITH RECOMMENDATIONS

PIIGuard360™ generates a work plan that includes recommendations on courses of action for identified gaps in the security posture.

DARK WEB MONITORING & SEARCH

Take control of personal information and credentials by monitoring the Dark Web for any breach.

AWARD-WINNING POLICY MANAGEMENT

Update and maintain the latest set of policies for your organization, with complete audit trails for accountability.

OVER 75 NIST-BASED POLICY TEMPLATES

A comprehensive set of policy templates to cover the full security needs of the organization and addressing nearly every cybersecurity regulation.

INCIDENT RESPONSE REPORTING, DOCUMENTATION & TRACKING

Capability to add organizational incidents and documents for audit tracking, reporting and compliance.

CUSTOMIZABLE ALERTS

Alerts can be customized to come from you or your client, increasing their open rate and raising awareness, and engagement.

WHITE-LABEL END TO END

From login to dashboard, emails to reports every aspect of the system can be fully branded so users feel all interactions are client-driven, client-audited.
